Rapid Access to Information

Interactive, topic-based HTML documentation and context-sensitive Help created with MadCap Flare is linked to Heartflow's cloud-based apps and lets customers quickly get the answers they need.

Enhanced Content Insight

MadCap Central provides valuable IFU usage insights, streamlines collaboration with experts, and enhances regulatory compliance for HeartFlow.

10x Faster Content Creation

Heartflow delivers its documentation up to 10x faster by taking advantage of content re-use, scripts, and conditional tags in MadCap Flare.

Cost-Effective Translation

Heartflow cut the company's time and costs required to produce it's documentation in 12 languages, since turning to MadTranslations for end-to-end translation services.

> Working with MadCap Software has allowed us to improve our productivity and realize huge cost savings that we couldn't have anticipated four years ago.

Stuart Escobar
Senior Technical Writer, HeartFlow Inc.
