

MadCap Syndicate: Your Unified Content Delivery, Governance & AI readiness Platform

T-Mobile™

**Driving Operational
Efficiency with an
80% Drop in Redundancy**

T-Mobile centralized its platform with MadCap Syndicate, streamlining workflows & eliminating duplication.

Unify your content. Power your AI. Govern with Confidence.

One-Click Publishing to Syndicate

Feature: Instantly publish all file types—including MadCap Flare projects—to Syndicate.

Outcome: Save time and eliminate manual uploads with direct, one-click delivery to any channel.

Enhance Search with AI-powered Semantics

Feature: Syndicate AI Search goes beyond keywords to understand context, synonyms, and user intent.

Outcome: Help users find exactly what they need with searches across all your content.

Governance That's Always Up to Date

Feature: Built-in compliance and governance tools.

Outcome: Ensure every piece of published content is current, compliant, and discoverable.

Distribute with Native API Integration

Feature: Advanced APIs that deliver to Salesforce, SAP, and Zendesk. Native distribution methods connect to LMSs, LXPs, chatbots, AI tools, and more.

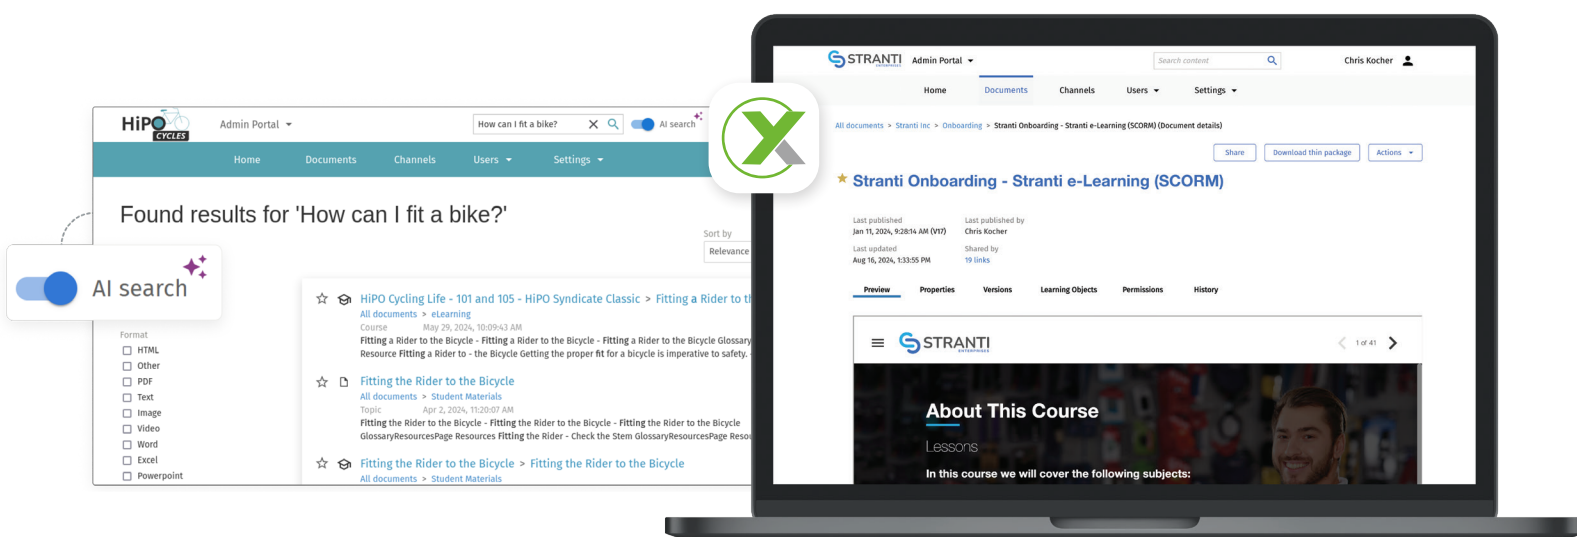

Outcome: Eliminate silos and deliver content directly into any platform with no manual work around.
